

TRENTHAM FOOD FORUM #1

7pm, Thursday 11th July 2013 - Trentham Mechanics Institute

Farmers, contractors, chefs, sellers, buyers, eaters:

What future do you see for agriculture and food production in our community?

*What gets you fired up about **food**?*

What support do you need to increase the viability of your business or start-up idea?

How can we join forces to create new growth in our local food economy and buck the negative trends of Australian agriculture?

This forum will be a productive workshop to brainstorm, lay out ideas and set a course of action.
A light supper will be provided, please feel free to bring a plate of something to share

This is an initiative of Trentham Sustainability Group and Trentham District Landcare, with support from the following groups:

- Trentham Community FORUM, Inc.
- Trentham Neighbourhood Centre, Inc.
- Lions Club of Trentham, Inc.
